

Key Stage 5 Curriculum Map - Geography

A-Level Geography at Caedmon College sets out our ambition to create academically successful students by creating a deep understanding of the interaction between the world's people and resources. I see Geography as the eyes of the world, connecting together the processes and a developed awareness.

		AUTUMN 1	AUTUMN 2	SPRING 1	SPRING 2	SUMMER 1	SUMMER 2
Year 12	Topic/themes/ skills covered	Water and Carbon Cycles Skills Systems and frameworks and their application The Water Cycle The Carbon Cycle Water, Carbon, climate and life on earth.	Water and Carbon Cycles Skills Systems and frameworks and their application The Water Cycle The Carbon Cycle Water, Carbon, climate and life on earth. Changing Places	Changing Places Skills The nature and importance of places Relationships and connections Meaning and representation Use of Quantitative and qualitative sources	Coasts Systems and Landscapes Skills Case Studies, facts, statistics, data interpretation and analysis.	Coasts Systems and Landscapes Skills Case Studies, facts, statistics, data interpretation and analysis.
