

German, French and Spanish

1. Memrise online

This is good for vocab learning. There are 1500 words to learn on their GCSE course. The more words they know, the more likely they are to be able to understand texts.

2. Speaking revision booklets

In class they **should/will be (very soon)** writing and answering questions on the eight topics which could be in the speaking exam. Once they have prepared their answer, they need to start learning **the questions and the answers**. Do a topic at a time, don't try to learn all of the topics at once. These questions will definitely be coming up in the speaking exam, and will also help in their writing exam. Parents could help by asking them the questions (in the language or in English), and see if they can remember the answers.
